

Exhaust Manifold *for Nissan Skyline (RB25DET)*

PRODUCT FEATURES

TR Skyline RB25DET exhaust manifold is high quality performance stainless steel manifold with T4 flange. It has been designed for optimum gas flow to allow faster exhaust exit, improve throttle response; therefore speeding up spool time and reducing turbo lag. TR manifold is TIG welded, outstanding polished finish tubing and huge weight reduction over stock manifold. It is complete bolt-on kit with all the fitting parts included such as gaskets and bolts & nuts.

SPECIFICATIONS

Part Number	TR-EN1006
Material	Stainless Steel SUS304
Application	Nissan Skyline (RB25DET)
Pipe Diameter	42.7mm (O.D.)
Pipe Thickness	2.0mm
Flange Thickness	15mm (Engine), 12mm (Turbo)

CONTENT OF KIT

- Exhaust manifold
- Exhaust Manifold Gasket
- Thermo Bandage
