Press Release – Subiefest 2010

Rosamond, California (October 12, 2010) – The Subiefest 2010 was successfully held on last Saturday October 9, 2010 at the Willow Spring Raceway in California. It was a sunny day with comfortable temperature after few days of chilling and rainy weather. About 8 am early morning, we could see cars began to line up by the entrance and drivers started practicing at race track.

As one of the main sponsors of Subiefest 2010, Tomioka Racing took this opportunity to display full line of Subaru products such as the Tomioka Racing [bolt-on turbochargers](#), [exhaust manifolds](#), [racing light-weight batteries](#). In addition, Tomioka Racing also offers drive-train products such as the [5-speed close-ratio gearbox](#) for the Subaru WRX and fuel components products [fuel injectors](#) and [fuel rails](#). To spice up the event, Tomioka Racing offered partial sponsorships on TR products products to the public.

Another highlight of the show was our show car, prepared by Edo Performance, the 2008 Subaru Impreza STi that was equipped the TR TD05-20G Turbocharger and TR equal length exhaust manifold. Shinning-up the 2008 STi was Ryan O’Sullivan and Dan Leifson from Executive Look Auto Detailing. Thanks to their detailing work, the STi was the most stunning show car in the event and managed to attract large number of Subiefest audience. Ryan and Dan were present throughout the day to assist Subiefest visitors.

As the show progressed, the audience was ecstatic as the MC, Sashin, announced the events highlights, introduced all the sponsors, and of course, gave out raffle items throughout the day. Tomioka Racing was proud to have contributed to the Subiefest 2010 raffle. Among this year raffle items were the eye-catching Tomioka Racing [Timing- Belt Guides](#), and a pair of ultra-portable [Tomioka Racing Ramps](#) that raises your lowered-car 3 inches off the grounds.

Subiefest 2010 was one of the biggest event ever with 16 vendors attended, plus 200+ Subaru enthusiasts showed up and about 20 Subaru attended the car show competition. EDO will come back next year for sure!
