

TR Fuel Pressure Regulator (Sport Series)

PRODUCT FEATURES

Introducing the all new TR adjustable fuel pressure regulator! It is designed for cars with upgraded fuel systems and requires fine tuning on the flow rate of fuel to the engine. The regulators have been outfitted with a 33mm diaphragm to insure your engine gets the perfect amount of fuel while maintaining stable pressure at high horse power level. These fuel pressure regulators are made from high quality billet aluminum with anodized blue steel finish to withstand intense conditions of the engine bay. Each kit comes with a regulator, mounting bracket and regulator fittings for most popular fitments. Vehicle specific adapters may be required for your applications.

APPLICATIONS

Part Number	TR-FPU1001
Material	Billet Aluminum
Application	Universal
Fittings	6AN 1/8NPT x 2 8mm Straight 1/8NPT x 2
Pressure Rating	2 kgf/Cm ² ~ 8 kgf/Cm ²
Horse Power Rating	Up to 600 HP

**Gauge sold
seperately!**

• Part Number:
TR-FPU1003

MSRP: \$45.00

MSRP: \$110.00
