Tomioka Racing Throttle Body Hose for Subaru Impreza, Legacy & Forester

PRODUCT FEATURES

Tomioka Racing's Kevlar reinforced Silicone Throttle Body hose is perfect for use with stock or aftermarket top mount intercoolers. Tomioka throttle body hose increases flow and is more durable than the stock 3-piece hose which is prone to splitting under increased boost levels. The Tomioka Throttle Body Hose is longer than the stock hose to make sure it's securely clamped under high boost condition! This hose is compatible with stock turbo and highly recommended when upgrading to the larger 18G or 20G turbochargers to ensure perfect reliability during high boost.

APPLICATIONS

Vehicle	Model	Year
Subaru	Impreza WRX	2008+
