Tomioaka Racing TD06-20G w/ 3 Inlet Turbo for Subaru Impreza & Forester

PRODUCT FEATURES

Looking to put out some high end power? Take a look at the TR TD06-20G Turbo, this turbo features a 3 inch Inlet allowing higher air flow than the standard 2.4 inch Inlet on the factory size turbo. This turbo comes with a heavy duty internal wastegate ready to make high end power! Please note in order to install this turbo you will have to get a 2.4 to 3 inch reducer inlet coupler and install TGV deletes to clear the manifold.
